Curriculum Vitae (CV)

What job i'm looking for? My positive points

Specifically a job in the medical industry, but honestly I would love working in a hospital . Taking care of people, helping those in need has always been a pleasure to me and a good side too . A few positive points of myself is that I'm hardworker, fast learner, ambitious and have great communication skills amongst fellow people and patients. To me the world need more doctors in the sense that they literally safe lives, always helping us staying hygienicly clean always wanting us to have the best and stay protected so to me it will really be a honour working by your side my fellow Role models.
