Curriculum Vitae (CV)

What job i'm looking for? My positive points

I am currently looking for administrative position as I feel I am person who is analytical, stickler for details and posses a level of patience I think is necessary for such positions. Would also be interested in Business or Operations related positions as I think I possess the necessary acumen and also that I am a fast learner, able to interact easily with other people. I am quite efficient in the use of a computer even though I think I need to improve a bit on the use of Excel spreadsheet. Though not enough as I plan to further my studies, the BA Hon Business Studies I have managed to achieve this far enables me to be a open minded person thus allowing me to approach work and life with an open mind with endless possibilities.
