## What job i'm looking for? My positive points

I've been honing my retail skills for a few years now and, first and foremost, I'm looking for a position where I can continue to exercise those skills.

Another thing that's important to me is that the position allows me to not only deal with customers , but also present my findings and suggestions directly to customers . That would be really refreshing! I'm always very motivated by being able to see the impact of my work on other people.

And, I'm definitely looking for a position where I can grow professional development is something that's really important to me since I hope to take on managerial responsibilities in the future.

To sum it up, I'd love a position where I can use my skills to make an impact that I can see with my own eyes. Of course, the position is only part of the equation. Being at a company where I can grow and work toward something I care about matters, too.
