Curriculum Vitae (CV)

What job i'm looking for? My positive points

I finished matric in 2019. Due to the pandemic outbreak and lack of funds finding school the following year became hard and I had to sit the year out. I decided to look for a job instead. I have an eagerness to learn and always strive towards being my better self. I'm focused and any given task I can execute to the best of my abilities. Any job that pays well would be perfect for me. Working at any company with a good junior position, as I currently don't have much experience would be a step in the right direction in doing bigger and better things both in my life and for the company.
