Curriculum Vitae (CV)

What job i'm looking for? My positive points

I am the candidate who's looking for an apprenticeship. I did my N5 in electrical engineering. The reason why I want this opportunity is that I want to further my knowledge and education in electrical engineering. Since I studied at PE College I only know the theory, so apprenticeship would be a very great opportunity for me in order for I have a trade test and know electricity in both practical and theory.
