Curriculum Vitae (CV)

What job i'm looking for? My positive points

I am not picky at all, at the same time, i am looking for something that is permanent and secure for me, something that i would turn into a career.

And I take life as a challenge, and I regard myself as a person who is willing to meet every challenge that comes my way. I firmly believe that choices determine destiny, and that one's attitude determines altitude. With dedication, determination, and discipline, it is possible to level the success, and I am willing to work hard and make necessary sacrifices.

If given the opportunity, I am prepared to work my way up from the bottom, because it is of utmost importance to humble and to have teachable and positive attitude. Responsibility and accountability has become the prime factor in my life, and this principle is vital to the working environment. Whatever the mind can conceive, it can also achieve, and I am certain that I have the potential and the gift embedded in my inner resources to be of great value and go the extra mile. I consider myself to be a potential asset to any Company, and to add value to any team I might work with.
