Curriculum Vitae (CV)

## What job i'm looking for? My positive points

I've been honing my data analysis skills for a few years now and first and foremost, I'm looking for a position where I can continue to exercise those skills.

Another thing that's important to me is that the position allows me to not only play with data but also present my findings and suggestions directly to clients. That would be really refreshing, I'm always very motivated by being able to see the impact of my work on other people.
