What job i'm looking for? My positive points

I have been honing my data administrative skills for a few years now and, first and foremost, I'm looking for a position where I can continue to exercise those skills. I am someone who thinks positively and who can execute on difficult tasks, I take challenges head-on rather than sweep them under the rug and hope they go away and I am easily committed to building something larger and who puts aside personal gain for the well-being of the group.
