Curriculum Vitae (CV)

What job i'm looking for? My positive points

I would like to work underground as a miner or work in the health and safety environment where I can show my knowledge in that field as I have completed my health and safety certificate at advance academy.

I am a very fast learner and can work well under pressure because I know that in every working environment there is always pressure to perform and to reach/ exceed targets required by management.

I have been working in the construction side of things but not mining, however I am willing to learn and better myself.
