What job i'm looking for? My positive points

Most people will say they are hard working , they have teamwork strategy and being polite to the surroundings but as for me I'm the right person who is needed in a work place. As I'm doing my matric I intend to follow a course of mining engineering if not its safely office at UJ. As so being the right person who will inspire youth and as a nation and not only by that but put the company in a good reputation not only of the achievement it has achieved but also empowering youth and fighting poverty in disadvantaged communities
