

Cynthia Mbele

Curriculum Vitae (CV)

What job i'm looking for? My positive points

I am a student. I'm studying engineering and I'm looking forward to get a job that will help me understand more about engineering. I want to work with everything that is in my theory. I want to be able to connect cables or create my own circuits. I just want more experience about it.

I am very sure about this, because I love my work a lot and I'm a very passionate person with my work that is why I want to experience a lot about engineering... And it would be a great opportunity to learn more about the position. Thank you.
