Curriculum Vitae (CV)

What job i'm looking for? My positive points

I'm looking for a position where I can exercise my skills. And i'm difinetely looking for a position where I can grow, professional development is something that's really important to me since I hope to take on position responsibilities in the future. I'd love a position where I can use my skills to make an impact that I can see with my own eyes. Of course the position is only part of my equation. Being at a company where I can grow and work towards something I care about matters too.
