Curriculum Vitae (CV)

## What job i'm looking for? My positive points

I am looking for a mechanical engineering job as I have a complete N2 Diesel in the field and made it a point to familiarize myself with my field of study by taking opportunities that have arised with time, thus there will be less to teach me, I am very much capable of working alone, under pressure and most importantly with a team as I am a team player myself.

With this opportunity I will be able to pay for my trade test as it has been one of my goals as a mechanical engineer.
