

Riyadh Solomon Mkuzile

Curriculum Vitae (CV)

What job i'm looking for? My positive points

Im looking for a job in the engineering industry, at the moment i just have my matric certificate and N3 in automotive, i was the best in my class. Im a deducted individual when in comes to tasks, im able to work under pressure and even if I'm given huge work loads , my strengths are that i can work well i individually and in a group as well , i also show great leadership skills which i would love to execute for my potential job position. My weaknesses is that i take work so serious that when im given a task and it takes time to finish I'll continue regardless if we have break i have no problem with working over time , along with my great work ethic and my interpersonal skills that's why i think I'm a worthy candidate to be given a job position, thank you.
