Curriculum Vitae (CV)

What job i'm looking for? My positive points

I've worked in several fields with rigid emphasis on sales, marketing, advertising, customer behavioral patterns and excellent administrative regulations. Which I must say it was all beneficial, challenging and highly educational. During my stay. I was part of a group of motivated individuals who together we were able to win numerous performance accolades, which in return were not only inspirational to us, but also good for business and the brand ultimately. My next wish would be to work with even more enhanced people in an environment where change and innovation is not an enemy. Therefore a change of work environment will not be seen as challenge but rather as a tool to broaden my experience, skills, knowledge and adaptability's horizon.
