Curriculum Vitae (CV)

What job i'm looking for? My positive points

I'm currently a student, studying engineering studies in fitting and turning and I'd like a job that would guide me or give me experience regarding engineering. I'm currently doing N2 part time and I'm looking for a full time job. I'm a hard worker, always ready for any challenge and I believe women are also capable of working same job as men. My confidence is at the peak for any engineering job offered because I know I can get the job done.
