Curriculum Vitae (CV)

## What job i'm looking for? My positive points

I am a young enthusiastic African woman, mother of 2. I can work under pressure and I'm a very fast learner so it doesn't really matter what type of job it is just teach me a few things about the position and I'll take it from there, I'm also looking into furthering my studies, even with the little work experience I have I believe in myself and I'm very ambitious but not too much I'm also a go-getter but also know where to draw the line. I am an outgoing person, shy at times, I also don't mind working overtime it's part of learning and getting more experience. I also want to grow in the environment that I am in so I would really love for it to be friendly and comfortable. Creating a CV is not a necessity, I believe in dealing with the person directly to know what you're dealing with. CV is like a manual that doesn't work at times, just be real and do you, let work speak for itself.
