Curriculum Vitae (CV)

What job i'm looking for? My positive points

I'm a person who's into drawing and editing pictures like a graphic designer but according to my educational skills, I don't meet the requirements to do graphic designer.

I'm looking for a job so that I can make profit and resume where I left off at school.

I'm a person who prefers jobs that requires working with hands and less with brain more like a general worker plus I don't have any work experience.

I am attending at a private TVET college since last year April and that time I was still getting used to the course that I'm doing which is Electrically Engineering but eventually I got used to the lessons but problem is that I just need a job and so that I can finish and build my future to be a successful and a providing man.
