What job i'm looking for? My positive points

Any job is fine if there is an opportunity because I am struggling now, I'm one person who can work without any supervision and I am a fast learner, at school I used to assist my lecturer when she had files of work to do... I took that as an experience because I was doing office work. Even now on my spare time I sometimes go and volunteer at my friend's work just to try and gain experience. The scarcity of jobs in our country made me realise that I should go out there and market myself so that I can gain experience. I am a nice person who likes working with people, I am honest about my work and a hard worker.
