What job i'm looking for? My positive points

Any job is fine if the is an opportunity because am struggling now, I'm one person who can work without any supervision and I am a fast learner, at school I used to assist my lecture when she had files of work to do... I took that as an experience because I was doing office work. Even now on my spare time I sometimes go and volunteer at my friends work just to try and gain experience. The scarcity of job in our country made me realise that I should go cut there and market myself so that I can gaining experience. Am a nice person who likes working with people am honestly about my work n a hard worker.
