Curriculum Vitae (CV)

What job i'm looking for? My positive points

A general job that does not require a degree or any form of education as i am still studying and looking for a job to provide for my family. It's tough to be under 25 and looking after my siblings and juggling school at the same time.

An online job would be ideal, along the lines of typing, writing or collecting data off of the internet. A job that won't make me take an online course or cost anything or make me move my location

Thank you for giving me this opportunity, I hope you hire me
And I promise I will give this job my all and a 100% commitment
