Curriculum Vitae (CV)

What job i'm looking for? My positive points

I am looking for any general jobs, looking to gain experience and acquire new skills in order to alleviate my life as I am currently unemployed, but I possess a BSc degree in forestry from the University of Venda which I obtained in the year 2015 on the 15th of May.

I am a fast learner, and team player and have good communication skills and good computer skills. Since I wasn't fortunate enough to get employment ever since I completed my studies, I am now willing to try other fields of work in order to advance my skills and learn new fields of work, that is why I'm applying for any general work or even learnerships where I can learn new skills.
