Curriculum Vitae (CV)

What job i'm looking for? My positive points

I am looking for any general jobs, looking to gain experience and acquire new skills in order to alleviate my life as I am currently unemployed, but I possess a BSc degree in forestry from the University of Venda which I obtained in the year 2015 on the 15th of May.

I am a fast learner, and team player and have good communication skills and good computer skills. Since I wasn't fortunate enough to get employment ever since I completed my studies, I am now willing to try other fields of work in order to advance my skills and learn new fields of work, that is why I am applying for any general work or even learnerships where I can learn new skills.
