Curriculum Vitae (CV)

What job i'm looking for? My positive points

I am looking for a job, where i could be able to put the business/ the company in the highest position due to dedication of the hard work that i have. i am seeking for difficult position that will definately going to prepare me for my future, as i am literally looking forward to run my own company one day. Any job position that occurs, i go for it regardless of what circumstances are there. But most specific position that i really want to be part of in the environment, is to work closely with the manager as i am a fast learner and a hard worker. I can also be available in the weekends or during the holidays. I was a student at Boston City Campus doing Bachelor Of Accounting. Unfortunately, i could not proceed with my second semester due to lack of money. My dad have been recruit from work and the market where he was working for, it is closed. And my mother is unemployed. So their trust is on me with the little income i get from work, i have to take care of them all including my little sister, as she is in grade 5. It is very difficult. Any job or position that occurs, i promise to do my best to produce quality results.
