## What job i'm looking for? My positive points

We are living in very hard and trying times, When i was still at school, when i was being asked "what is your dream job" i would say Doctor, Pilot, Engineering, Lawyer etc, When you are still in school you think of all these prestigious jobs.

Now i have finished school and i realise that when you are still in school, Life seems simple and predictable, But when you finish school, Life becomes not simple and unpredictable.

What kind of a job am I looking for?, Am looking for any kind of a job, So i can be able to help my family, Am 22 years old, And i think am old enough to be a responsible man.

Am old enough to be a man, One does not become a man by virtue of being old, But responsibilities shape up a man.

When people are looking for jobs, they say all the things the employer wants to hear, Even the laziest person in the world would say "am a hard worker", Even a thief would say "am reliable" even he who does not respect time would say "am a punctualist", Even the clumsiest and sloppiest would say "i have great organizational skills" out of desperation.

Therefore knowing very well that i need a job, I think you already know what i have to say to sell myself to you.

If i were to be given an opportunity to join your company, It would be a great honor as well as a privilege for me, And I will make sure that you never ever regret giving me a chance to join your company and I will be an Indispensable asset of the company.
