Curriculum Vitae (CV)

What job i'm looking for? My positive points

I would like to start this off with a statement. "Hire a great attitude because knowledge and skill and be acquired"

A great attitude coupled with the necessary skills I feel is a "smart hire"

I have a can-do attitude and believe that I can learn anything.

I believe in change and easily adapt to new things.

Keeping up to date with the latest technology I find is the best way to improve yourself and your set of skills.

It not only encourages self growth but also the growth and development of the department as a whole. I have a life-long love for learning and development that being said I would love to be apart of the already successful and effective team at your organization. I strive towards excellence and innovation in everything I do. I believe in self improvement and regular introspection to evaluate and ensure personal growth and progress both personally and professionally. Last but not least, I also feel that I need to mention that I have recently completed a accounting course through IQ Academy to enhance my bookkeeping knowledge.

If given the opportunity I will be able to proof that I will indeed be an asset to your team.
