Curriculum Vitae (CV)

What job i'm looking for? My positive points

I'm a very passionate young lady I work really hard whenever I get a chance ,I do my best in whatever chance I get I'm a young black strong women who can fight her own battles.I'm a promise keeper or I will say a lady of her word and I care about others people's feelings and I sincerely apologize whenever someone tells me that I did them bad I'm an open and kind human being alive ,I enjoy socializing with people. Reason being of me begging for any job position is because I'm my family's last hope since I completed my Matric last year I'm willing to give my all in any job vacancy I'll be offered I have siblings but they are not working reason being the one is disabled and the other had consequences while at school and ended not completing school, I'm the only one at home amongst my siblings that completed Matric I really kindly wish I can be offered any job vacancy to help my family because I really tried applying at Varsities with no luck and that as a young person depresses me because I deeply wanna change my home's situation since I'm their last hope by all means I'm willing to do anything as in like anything also my siblings are trying with no luck and that is very sad since most of job vacancies have requirements ,I am a fast learner whenever I'm being told things and I'm proud of that because that add to an advantage.

Please find the above said statement formal because that is very true about me .

Your's faithfully
