Curriculum Vitae (CV)

## What job i'm looking for? My positive points

Preferably I work with computers, I know my way around Microsoft office (excel, word and PowerPoint).

80% of the time you deal with people, so I'm excellent in engaging conversations with people.

The most efficient way for me to work is working smart, I find the easiest way to complete a task in a short period of time. This allows me to complete numerous tasks in a given time.

But I don't come short in hard work, I dedicate myself onto something and try my hardest to produce optimum results. I'm a team player, I help and if I'm not able to perform a given task I'm not ashamed to learn from someone who is more experienced than me.
