

George Daniel Sibanyoni

Curriculum Vitae (CV)

What job i'm looking for? My positive points

Operator, Plant Forman and Water plant.

Maintenance Experience : Pollution Control Dam, Screens, Spiral plant, Water Pipe Lines.

Clerical Experience : 2 years acting Metallurgical clerk.

Management skills : Communication, Problem solving, Giving Line up on Shift.

My Responsibilities Are

It will be my responsibility to assist the Process manager Appointed in terms of section 3(1) (a) of the MHSa in the carrying out of his/her duties and responsibilities within my area of responsibility. In this Capacity I will be responsible for the day to day management and operation of activities within my designated area of responsibility.

It will be my responsibility to ensure compliance with the provisions of the MHSa, MHSa Regulations, and MA Regulations and the Minerals and Petroleum Resources Development Act no.28 of 2002(MPRDA), as amended or replaced from time to time, insofar as it relates to the manager as defined, and as applicable at the mine, through the application of my skills, experience, knowledge and training. In particular, I am required to ensure that duties of the manager as set out in the MPRDA, MHSa, MHSa Regulations and MA Regulations are complied with.

I will guide the operator under my control, ensuring compliance with the statutory act and regulation.

I will supervise the plant production operation maintenance

- Liaison with mining to optimise production and also to adjust the plant parameters according to coal type received.
- Co-ordinate and communicating the production plan with the process team.
- Conduct low level operational maintenance.
- Ensure optimal efficient use of resources (Coal, Water, Magnetite, and Flocculent).
- Meet customer requirement by controlling metallurgical product throughout and quality.
- Analyses and interpret lab results and make adjustments as required (Densities, Plant Feed rate).
- Facilitate train loading operation and documentation.
- Process and Engineering inspection.
- Monitoring SCADA and react accordingly.
- Assist with Maintenance of filters.
- Ensuring that all procedures are in place and that employees are trained and competent.
- The budget under His / Her control.
- Safety compliance.

I will ensure compliance with the company. Commitment to zero harm. This will include demonstrating a record of uncompromised value of Safety an Environment, Integrity, High Performance, Win-Win Relationship, Courage to lead change and respect of each other.

I will ensure correct qualities and quantities of coal is produced in term of customer Specification.

I believe that I will be the asset to the company and perform to my best of my ability.

My reason for applying for this position are that I lack funds to study National Diploma in Fuel Technology and Advance Coal Preparation.

I enclosed certified certificates copies of my recent testimonial together with my CV's. I am available to commence employment immediately. Please do not hesitate to contact me, should you require any further information I will gladly send it by a return post or email.

Yours Truly

George Daniel Sibanyoni.
