## What job i'm looking for? My positive points

I am looking for a job in engineering sector. I have N2 in mechanical engineering, boilermaker, matric and a computer literacy. I have never worked nor got any learnership before, by far I do not have any experience because where I attended my course they didn't offer any practicals. I would like to be given an opportunity to show case my knowledge and to gain some skill as well as experience in the engineering sector so that I can be a qualified artisan.
