What job i'm looking for? My positive points

I am a 18 year old currently searching for employment. Im a very diligent worker and a good team worker but can also work equally as competent as a single individual.In our current economy i will seemingly be willing to work any job that is presented to me and give it my utmost best.I am a critical thinker and easily adapt to my environment and perform well under any type of enviroment.I have not fully experienced any working experience but my life encounters and school life have surely turned me into someone who works hard and easily adapts as i stated.
