

# Mokgethwa Maraba

Curriculum Vitae (CV)

## What job i'm looking for? My positive points

I've been considered to be a jack-of-all-trades, and multitasking effectively and accurately is one of my specialties. I have always been a hard worker and I have so much pride in my work ethic. I would describe myself as someone with strong mathematical and analytical skill, a good work ethic and a yearning for learning, meaning I always make sure to ask the right questions to minimize errors. I would like to put these characteristics to use within your organization. I give my full energy and dedication to any project I take on, and I always see it through.

I've accepted awards for exceptional academic progress and achievement from 2009 till 2014, 2nd and 4th place for best results in mathematics for the years 2010 and 2011 respectively, which was presented by Anglo American. I was the best overall achieving student in my matriculation year, and I have continued to excel in my academics. While in university full-time, I also developed my people skills by growing my social media influence. I have gotten the opportunity to work with brands such as Jeep, Factorie and Fashion Nova, which helped develop me and get me ready for the business world.

As you will see from my CV, I was unable to obtain my degree due to financial difficulties. I have no work experience, but I believe that I can work my way to the top and become an important and critical part of your organization. The components that were discussed during my studies closely match the skills required for this position.

I would like to further explain my motivation for this position during an interview. You can reach me either by phone or by email. Thank you for your consideration. I look forward to hearing from you.

Sincerely,

Mokgethwa
