

Nonofo Molebatsi

Curriculum Vitae (CV)

What job i'm looking for? My positive points

My name is Nonofo Molebatsi and I am applying for the position of data analyst internship with your company.

I've been working for a company for the past 2 years, crunching numbers and managing databases, and I'm eager to advance my career in data analysis. I've always loved numbers and have excellent computer and math skills. Excel, mySQL, SPSS, Oracle 11i, and other data management programmes are among the applications and systems I am proficient in. I march to the beat of statistical significance, A/B testing, and data-driven optimization.

Even while I enjoy manipulating data, it's data analysis that really gets me excited. I enjoy examining the connections between numbers and turning data and spreadsheets into narratives. I take pride in my ability to make data accessible to both executive decision-makers and frontline sales staff. In the age of big data, these stories become actionable solutions and strategies for businesses.

I am meticulous, methodical, and accurate in my job, my spreadsheets are the only thing neater than my room. I'm a good communicator with a talent for making presentations that are both transparent and informative. I feel at ease addressing the figures on my own, but I also love working with a clever team of dedicated individuals.
