What job i'm looking for? My positive points

I am looking for a Job in Marketing. I'm very good with closing sales and making sales to clients in the most friendliest manner. I love learning new aspects of marketing practically. I am very good at forming new relationships as that's what being a good sales person, a marketer, ND a store assistance requires. I am very passionate and self driven. Although, working under pressure does not help nor work out for me, so I always make sure to do my work on time so I don't get to be put on so much pressure. If a situation happens and a company is in a lot of pressure, i,however focus on my goal,which is to reach success and give out my best out of the love I have for every work that I perform,therefore no worries should be attained for I can operate and still get the Job done perfectly as required!
