Curriculum Vitae (CV)

What job i'm looking for? My positive points

Even though I have knowledge of the green industry's foundation, I still believe that using what I've learned in actual work is the greatest way to refine it. I developed a variety of skills and abilities during the pandemic , including time management, organization of my workload, verbal and written communication, interpersonal skills, the capacity to work alone and in teams, problem-solving abilities, and computer literacy. My goal is to work in a setting that motivates me to thrive and develop professionally so that I may put my knowledge and skill to use. In fulfilling the tasks , I'll do my absolute best and greatest.

I apply for this internship because I want to advance my career in a position that will help me grow as a person. I work well under pressure that is because I prioritise my responsibility that gives me a clear idea of how to get the job done. I try to stay calm as possible as I can and focus on getting the job done. I am flexible enough to work extra shifts if needed and I have ability to adapt fast which will facilitate the training period
