Curriculum Vitae (CV)

What job i'm looking for? My positive points

Currently I would love to join the mining industry, Warehousing, Manufacturing industries, Retail industry as another option because I worked for 4-years in that field, it was a great opportunity and I believe there's more to explore than being reserved only to a certain task of work. I am well organized, efficient and self motivated. The key to my success has been to learn quickly and to then reach for a higher personal and professional standard by seeking additional responsibilities. I have also done customer support and customer service management. My goal has always been to exceed the expectations of both my employers as well as my customers.
