What job i'm looking for? My positive points

Dear Sir, Madam Goodday sir or madam, I express my eager intent in submitting my curriculum vitae for the opportunity to work for the prescribed job. I believe that my qualifications and skills fit the criteria of the internships job specification checklist. I have studied and completed all S1, S2, S3, S4 modules in the field of mechanical engineering, and I am confident that I can perform the duties of the job efficiently. Furthermore, the vision and mission of your company match my career objectives, which I believe would help me grow in my profession.

I have completed all my theoretical component subjects for my DIPLOMA IN MECHANICAL ENGINEERING. In this present moment am currently looking for an internship to cover the components of my Work Integrated Learning (WIL) and to gain experience in the field. I would appreciate the opportunity to demonstrate my skills.

If the company wishes to have an in-depth discussion about my application, please contact me. I am available for an interview at any time most convenient for you. I am looking forward to your call and favorable response. Thank you very much for your time.
