Curriculum Vitae (CV)

What job i'm looking for? My positive points

I am looking for a job in the IT industry. The kind of a job that will help me interact with other people but at the same time allows me to be independent. I do great work in group tasks but I have a capability to do work independently. I am willing to give it all my best towards my job while working with other people and treating with respect. I hardly talk but when it comes to accepting help I am willing to listen because I believe that I can gain more knowledge through having to listen to my colleagues or seniors.
