Curriculum Vitae (CV)

## What job i'm looking for? My positive points

I have always had the feeling that I would fit in with a group of creatives. Being expressive, or at least having the ability to convey an opinion that would be meaningful to someone or make someone smile, is something that the world needs more of.

Having only just now found the courage to be creative and expressive, I realize that I have so much to learn. I am eager to learn more about media in general and how to write better, express myself more clearly, and grow as a storyteller. I also hope to assist others in their own growth and be a part of that journey.

I thank you for your consideration.
