Curriculum Vitae (CV)

What job i'm looking for? My positive points

I am currently doing my LLB degree, I am a full time student. I hope that getting into the working world will help me narrow down my industry preference. I love international relations but am not ready to devote my entire life to government or non-profit work. Realistically I'm looking for a job in just about any industry that will help me gain a knowledge of business development or operations. I have very strong analytical skills, I will try to solve the problem's source not the problem. I will never hesitate to accept my failures. Through that I will never fail to learn. I am very good listener, if someone is speaking with me about something.
