

Scheppreno Govender

Curriculum Vitae (CV)

What job i'm looking for? My positive points

As a Trade Tested Boilermaker, I have gained vast experience on site as well as the manufacturing workshop. I firmly believe that I have acquired the necessary knowledge and skill set to add value to the company if given the opportunity.

To be successful at any task is entirely dependent on the attitude of an individual and their intrinsic motivation. I am an individual who is motivated by personal rewards which would be my drive to succeed and advance my career in the industry.

I am currently employed at an engineering company in which my efforts and capabilities have been recognised at a higher level. I have therefore excelled from apprentice to Artisan Boilermaker during my tenure at FP Engineering.

I would like to advance from this position, pursue new challenges and expose myself to a new environment which I strongly believe will enable me to further develop my skill set and allow me to acquire more experience, which will enable me to build my career.

I have attached my CV for your perusal and this would give insight to the various tasks I am capable of and my educational qualifications. I do look forward to a favourable response.

Preferred occupation Manufacturing jobs
