Curriculum Vitae (CV)

What job i'm looking for? My positive points

I work in different companies because I love learning something new. My first passion is construction and I worked very hard to complete it so I have no regrets of leaving anything half complete. I realised the most important skills I need is being able to sell anything and making any customer I come across to have such a great experience in my hands they keep coming back. So I went into sales and have loved every minute of it.
