

Elvis Moyo

Curriculum Vitae (CV)

What job i'm looking for? My positive points

With my background in nuclear science, physical and chemical sciences I can contribute to the mining industry in various roles. Here are a few potential job avenues:

Radiation Safety Officer: Monitoring radiation levels, ensuring compliance with safety regulations, and implementing safety protocols within mining operations.

Materials Scientist: Studying the properties of minerals, ores, and materials used in mining processes to enhance efficiency and sustainability.

Environmental Scientist: Assessing the environmental impact of mining activities, developing strategies to mitigate adverse effects, and ensuring compliance with environmental regulations.

Research and Development Specialist: Conducting research to innovate new technologies or methods for mining, focusing on efficiency, safety, and environmental sustainability.

Preferred occupation	Generals General jobs
