

Given Mashabela

Curriculum Vitae (CV)

What job i'm looking for? My positive points

2023 was my final year at Tshwane University of Technology studying BEng Tech in Industrial Engineering. I do not have extensive work experience. However, I did my three (3) months Industrial Design Project (IDP) at BFG Africa. I am confident that my strong academic background and leadership skills cultivated through extracurricular activities make me an excellent fit. Throughout University, I was an active student, eager to learn, and a volunteer in our practical and assignment groups, which allowed me to develop strong communication, teamwork, and problem-solving skills. Furthermore, my studies in Industrial Engineering have given me a solid foundation in excel, designing, programming and simulating models. I am eager to bring my passion, dedication, and willingness to learn in companies. I look forward to the possibility of contributing to organisations.
