

Adrian James Jantjies

Curriculum Vitae (CV)

What job i'm looking for? My positive points

Go getter? That is the best way of describing who and what I am. I am highly goal driven and deadline obligated, every deadline needs to be met, and every goal must be reached without excuses. I work efficiently well, cool and calm under pressure. I have completed a higher certificate course at the Cape Peninsula university of Technology in Cape Town, but I could not complete my studies. I furthered my education in the IT field, specializing in software development, using java codes and mainly having a interest in Python. I also have many cisco networking academy certificates, having to deal with all hardware and software parts of a pc.

I currently do not have any experience in the IT field, but I'm willing to learn, and I wont stop at any cost if the opportunity is granted my way.
