

Stefan Cronje

Curriculum Vitae (CV)

What job i'm looking for? My positive points

Currently any job that is on offer. I am a well balance person that can perform almost all tasks with precision and to the last detail. I am good with my hands and have a wide range of experience. I was at SAA Cargo for almost 30 years as a Service Agent (Working with Cargo in all aspect), Network Administrator and a System Analyst when I joined middle Management. I have a range of IT courses behind me and have done almost all available inhouse courses at SAA that range from customer care and service, handling of cargo and special rate creations.

I am target and goal driven with attention to detail. I am good at solving problems and looking for solutions. In my previous job I was a project Administrator and as we grew became a HOD leading a team of specialist. I was responsible for training and keeping the team focused, and also helping them with their problems. I feel I can fit in almost anywhere given the opportunity to prove myself. Salary can always be negotiated at the end of the day. I also feel that I can have a positive effect in any job even if it is as one of the team by supporting them and then even leading them by growing in the company and its values.
