

Lindokuhle Nene

Curriculum Vitae (CV)

What job i'm looking for? My positive points

My business and technology background shapes my attitude, my vision and resilience when it comes to my work. The challenges I've faced, like being a part of several teams to build startups in modern South Africa, has strengthened my character in administrative work, Sales, Marketing, Finance, Operations and Management as well as Technology. As it turned out, being an Operations Manager's Assistant, I along with a team oversaw a successful build of an AR incorporated marketing and technology coding business which was a career success for me. These qualities have contribute to my personal growth as well. Making me brawny and hardy.
