

Matamela Whiteny Rankhododo

Curriculum Vitae (CV)

What job i'm looking for? My positive points

Tamirankhododo@gmail.com

Dear Hiring Manager,

As a Data Coordinator at Wits Health Consortium (VIDA), I am the bridge between the data section and the field section. Part of my responsibilities is help maintain the quality of the data that is being collected from the field, making sure that the fieldworkers have the resources they need to perform their tasks. One of the responsibilities is updating reports daily so that we know the progress of the field.

In my previous job as a Data Quality Controller, I help maintain the quality of the data in the organization. By supporting all the teams from Invoicing, Import and Export controllers, Estimation and Pricing and also support with any IT Software queries. One of the responsibilities is updating reports on a daily basis with our systems so that the clients can be able to track their shipments with accurate information.

While in HSRC, my responsibility as a database professional was to collect, extract, import, monitor, ensure data quality, design, and streamline all the repositories of data. This data was highly important and contained many personal details and confidential information about the participants. I ensured that all safety protocols were followed and that best practices were implemented at all times. I am very cognizant of the importance of security in these modern times.

I enjoy working as a data professional, and I have met and solved many informational and data-related challenges in the process. I am always interested in acquiring better ways to improve database efficiency and performance, and I look forward to learning more about the company's goals and what they want to achieve in the realm of safe and secure data management.

Please take a moment to review my attached resume. I am interested in hearing more details about this position and learning more about the company. I am always ready to share my knowledge with others, and I love learning new things from my peers, especially in a fast-paced environment.

Sincerely,

Matamela Rankhododo
