Curriculum Vitae (CV)

What job i'm looking for? My positive points

Since I am a plumber not yet trade tested but is longing to be, I seek challenging opportunities where I can carefully use my plumbing ,supervisory ,planning ,driving and organizing skills for the success of the organisation. To also work on an environment which encourages me to succeed and grow professionally where I can utilize my skills and knowledge appropriately. As a young person I am seeking a role which allows me to continue learning and perfect my skills as I provide high quality work and encourages me to flourish. With my National Certificate Vocational in Civil Engineering and Building Construction I am able to supervise, manage, plan, organize, lead which served as a doorway for me to be self-employed hence directing and giving scope of work to my team so we work according to client Specifications ,time frame and within allocated budget. That again helped me alot as I also worked as a labour or employee for some companies to utilize my skills appropriately with them for the success of the organisation.
