Curriculum Vitae (CV)

## What job i'm looking for? My positive points

I am a National Diploma: Engineering: Electrical graduate from Walter Sisulu University. I believe that I could be a valuable employee for your company and a great team player. The skills that I possess, in addition to the skills obtained in my relevant course, are; a basic knowledge on the PLC and its role in industrial automation, including how to incorporate it in an electrical circuit and how to read and understand a PLC circuit; a basic knowledge in Industrial Electrical that includes how to read and understand detailed electrical circuits, how to use Electrical measuring equipment and connecting together circuits using industrial components and testing of 3 phase and single phase motors using a multi-meter; a basic understanding on how to read detailed pneumatics drawings and their schematic symbols; a basic knowledge of electronic devices that includes calibrating using standardize calibration kits, and troubleshooting and repairing using the required electrical components and equipment; and last, but not least, a basic understanding and experience in the designing and wiring of a building, which includes the budgeting of the projected costs of wiring and the ability to meet the customer's requested design. If I would be given the opportunity to be part of the team, not only will I put my heart and soul to the progression and success of the team, I will also be diligent and humble so as to be able to learn as much as I can and contribute towards the skills of the team and future of the company.
